

SAGOL'S DISTINGUISHED LECTURE SERIES

2022-2023

11
DEC

Targeting Synaptic Tau
Patrik Verstreken, KU Leuven, Belgium

01
JAN

The Tango toolkit for trans-synaptic
tracing and manipulation of neural circuits
Gilad Barnea, Brown University, USA

15
JAN

The primacy of behavioral research for
studying the brain
Yael Niv, Princeton, USA

26
MARCH

Neural mechanisms of prosocial
behaviors
Robert Malenka, Stanford, USA

16
APRIL

ZOOM MEETING

Role of APOE and the immune response
in tau-mediated neurodegeneration
David Holtzman, WUSTL, USA

07
MAY

Mitochondria regulate brain circuits
for anxiety and motivation
Carmen Sandi, EPFL, Switzerland

04
JUNE

Cortical dynamics enabling
interactive communication
Michael Long, NYU, USA

**TEL AVIV
UNIVERSITY**

**SUNDAY, 2PM-4PM
ROOM #01, WEBB BUILDING**
